GitHub LinkedIn

Summary

Front-end developer with 2+ years of freelance experience building responsive, production-ready websites with Next.js, React, Tailwind CSS, and Supabase. Seeking a front-end developer role.

Featured Project

Muchi Bari - Leather Goods E-commerce shop

Next js | Tailwind Css | JavaScript | Plugins

Built a full leather goods e-commerce website with product browsing, cart, checkout, and order tracking, plus a complete admin dashboard to manage products, categories, banners, orders, and customer reviews. Handled the entire project design, development, hosting, and ongoing maintenance from start to finish.
